BALACLAVA

BALACLAVA protects the head, the face and the neck on cold, windy days. The design, specific to each zone, optimizes thermal insulation and regulates humidity. The seamless fitted design and multiple side vents make it comfortable to wear under a helmet, without getting in the way.

Short Description Balaclava for protection against cold and wind

Selling Points

- Optimal protection for the head, face and neck, for cold and extreme environments:
 - central section in Windstopper® offers thermal insulation against the cold and wind for the face
 - lower section in fleece protects the neck from the cold
- Designed for wearing under a helmet:
 - upper section is breathable, to limit perspiration inside the helmet
 - seamless, fitted design for optimal comfort with the helmet
- Does not get in user's way during everyday work:
 - lateral slots in front of the ears ensure hearing is not impeded
 - holes around the nose and in front of the mouth ensure good breathing and limit the formation of damp areas
- Machine washable up to 30° C
- Available in two sizes

Specification

- Weight: 60g
 - Material(s): polyester, spandex
