Accredited to: EN 361:2002
Web material: 45mm water repellent polyester
Fittings: High tensile steel alloy
Weight: 1.3kg
Features:

- Quick release buckles
- Front and rear attachment point
- Rip stitch indicators
- Fully adjustable

Sizes: Small, Standard, Large and X-Large
Please refer to the harness size guide

The speed and simplicity of assembly and adjustment makes this harness the ideal solution where rapid and simplistic donning and removal is crucial.

- Fitted with a rear D and a chest mounted front D for conventional lanyard attachment.
- The chest and leg straps comprise quick release buckles. A variety of other devices can be used with the D rings, but check for suitability.
- The ring connection between the chest and shoulder straps ensures no stress loading when force is applied to the front D ring.
- Fully adjustable and fitted with rip-stitch indicators.
